QUALIFICATIONS SUMMARY

- I am a Software Engineer with a bachelor's degree in Computer Science and over 3 years of software industry experience;
- Proven track record of working with multidisciplinary teams and complex projects, optimizing frontend architecture, and promoting best practices mainly in React and TypeScript.
- Good communication, interpersonal skills and teamwork are part of my professional profile;
- Great capacity for adaptation and strategic thinking are some of the skills that permeate my entire solution development process, from writing code to time management. They are also responsible for making my work more diligent and efficient, always prioritizing the delivery of high-quality results in a timely manner.

EDUCATION

Software Quality Engineering (Graduate Degree) | 01/2025 – 12/2025

SENAC Brazil

Computer Science (Bachelor's Degree) | 2012 – 2017

Federal University of Alagoas (Brazil)

EXPERIENCE

Systems Analyst | FIVE Validation | May/2023 – Present

- Responsible for the development, maintenance and improvements of software, infrastructure and UI/UX Design.
- Participation in technical decisions about the system interface in collaboration with the UI/UX team aiming to ensure the best user experience;
- Integration of the interface with APIs developed by the Backend team;
- Active involvement in the process of creating and executing automated e2e tests in order to guarantee the correct functioning of pages and functionalities of the developed application.
- Conducting code review;

Frontend Developer | Tech Pro Bem | Jul/2022 – Dec/2022

- Development of pages and functionalities in the administrative area of the institutional website of the NGO Saúde da Rua;
- Participation in technical decisions about the system interface in collaboration with the UI/UX team with the aim of ensuring the best user experience;

- ∋ Integration of the interface with APIs developed by the Backend team;
- ∋ Assistance in maintaining the quality, organization and automation of the entire application;
- ∋ Conducting code review;

TECHNICAL SKILLS

- ∋ **Programming Concepts:**:
    - o Programming Logic, Algorithms, Data Structures, Object-oriented Programming (OOP), Functional Programming, Notions of SOLID, Clean Code, Clean Architecture and Test-Drive-Development (TDD - Unit and Integration Testing);
- ∋ **Technologies**:
    - o Frontend:
        - ▪ HTML, CSS, JavaScript, React, Next.js, SASS, Tailwind CSS, Material UI, Chakra UI, Styled-Components, Bootstrap, React Query, React-Hook-Form, Zod, Shadcn, Axios, Figma, Jest, Vitest, Cypress;
    - o Backend:
        - ▪ Node.js, Express, Nestjs, JWT, Insomnia, Postman, Swagger, Jest, Prisma, MongoDB, Firebase, PostgreSQL, Docker;
    - o General:
        - ▪ Git, TypeScript, AWS.
- ∋ **Agile Methodologies**: Scrum, Kanban;

CERTIFICATIONS

- ∋ Professional React & Next.js – Bytegrad
- ∋ MERN (MongoDB, Express, ReactJS, NodeJS) Stack Course – Udemy;
- ∋ ReactJS – Coodesh;
- ∋ Git and Github Essentials – Amigoscode;
- ∋ Relational Database and SQL Essentials - Amigoscode;
- ∋ Responsive Web Design – FreeCodeCamp;
- ∋ JavaScript Algorithms and Data Structures – FreeCodeCamp;
- ∋ EF Standard English Test – EFSET;

LANGUAGES

- ∋ Portuguese – Native
- ∋ English – C2 Proficient (CEFR)
